

May 2009

Dear HIGCSE Learners

### **LAST EXAMINATION FOR HIGCSE IN 2010**

We hope that you have been pacing your studies and working hard in preparation of the examinations that you will be writing in October/November 2009.

We would like to remind all learners who are enrolled on the Higher International General Certificate of Secondary Education (HIGCSE) programme, that the last examinations for this programme will be written in **2010**. This means that you **will not** be able to write a HIGCSE examination after 2010. It means that there will not be another opportunity for you to obtain any outstanding credits that you may need in order for you to be issued with the Higher International General Certificate of Secondary Education, after 2010.

We urge you to write the examinations for **ALL** the HIGCSE subjects for which you have enrolled, and not yet written and/or passed, in **October/November 2009**, so that you have a very last opportunity in October/November 2010, to rewrite those subjects that you did not pass.

**8 June 2009 is the registration closing date for the October/November 2009 examination. Late registrations will be reviewed and considered. Please contact the college if your registration is late.**

It is important that you plan your study schedule with the above in mind.

Should you have any questions of clarity, or require further information you may contact the Call Centre at 0860 41 41 41.

Yours faithfully

High School Division
