

AS Level Qualification – Educators Required:

ICG (International Colleges Group) is a private education distance-learning provider. We develop a large range of learning programmes across various learning areas for the distance learning college in the group, namely Damelin Correspondence College.

We are looking for suitably qualified educators who have substantial experience of working within the AS Level Qualification framework.

We would require these educators to:

- Write material supporting existing textbooks (i.e. study guides), which systematically takes the student through the learning material;
- Draft 3 - 4 assessments (and solutions), aligned to the standard, quality and type of questions that a learner might get in an AS level examination. These assessments must be structured in a way that ensures that the learner has covered all of the learning material by the time they do the last assessment.
- Add content or notes where the textbook(s) may be deficient;
- Obtain any copyright permission should s/he decide to utilise non-original content, illustrations or graphics.
- Work through the textbook(s) in a way that is meaningful, simplifying concepts that learners may have difficulty understanding;

We will be developing the following subjects:

- English
- Afrikaans
- Mathematics
- Business Studies
- Economics
- Geography
- History
- Accounting

All interested and suitable educators should contact Steven Albert for further information. Please submit a brief CV showing evidence of current teaching experience for AS Level qualifications.

Thank you,

Steven Albert
