INSTRUCTIONS:

1. Read the following instructions carefully before answering the paper, as failure to act upon them will result in a loss of marks.
2. Write your answers in your answer book, which is provided in the exam.
3. Ensure that your name and student number are clearly indicated on your answer book.
4. Write your answers in either blue or black ink in your answer book.
5. Read each question very carefully before you answer it and number your answers exactly as the questions are numbered.
6. Begin with the question for which you think you will get the best marks.
7. Note the mark allocations for each question – give enough facts to earn the marks allocated. Don't waste time by giving more information than required.
8. You are welcome to use diagrams to illustrate your answers.
9. Please write neatly – we cannot mark illegible handwriting.
10. Any student caught cheating will have his or her examination paper and notes confiscated. The College will take disciplinary measures to protect the integrity of these examinations.
11. If there is something wrong with or missing from your exam paper or your answer book, please inform your invigilator immediately. If you do not inform your invigilator about a problem, the College will not be able to rectify it afterwards, and your marks cannot be adjusted to allow for the problem.
12. This paper may be removed from the examination hall after the examination has taken place.

NOTE: YOU ARE ALLOWED TO USE A NON-PROGRAMMABLE CALCULATOR.

QUESTION 1

SARS uses donations tax as a means for compensating themselves for lost taxes (both estate duty and income tax) that may arise when a person donates an asset. The donor is generally the person liable for donations tax.

Mr B, who has a marginal tax rate of 40%, donates a building which produces annual rentals of R100 000 and has a market value of R600 000, to his niece, Miss Z, who has a marginal tax rate of 25%. Mr B died the following year.

You are required to:

Discuss the income tax, estate duty and donations tax effect of this transaction.

QUESTION 2

ABC family trust, a discretionary inter vivos trust, had the following assets: a flat which was purchased at market value by the trust and a money market account which arose from a R800 000 donation from Mr Z.

The trust earned the following income in the year ended 29 February 2012:

Rental income on the flat R120 000
Interest income on the money market account 40 000

The following distributions were made to the beneficiaries (Mr Z's children) on 29 February 2012:

Aimee (aged 23): R20 000
Keif (aged 17) R60 000

The remainder of the income was retained in the trust.

(a) Calculate the trust's tax liability.

(b) Calculate the amount of taxable income that will included in Aimee, Keif and Mr Z's income as a result of the above transactions.
